THE COTTON MOVEMENT.

The receipts of cotton at all ports for the past week were 110,610 bales, against 133,705 bales the previous week. The total receipts since September 1, 1872, are 887,588 bales, against 666,608 for the same period of last year, showing an increase in the present crop of 220,980 bales. The exports from all the ports for the week were 75,462 bales, against 59,889 last year. The total exports for the expired portion of the cotton year are 379, 323 baies, against 289,435 last year. The stock at all the ports 18 343,723 bales, against 329,165 for the same date in

MONEY EASIER.

The money market was active early in the day at 1-32 a 1-16 per cent, but relaxed after two o'clock, and loans were made at as low as 4 per cent before three o'clock. Mercantile paper was quoted 10 a 12 per cent discount for prime names. Foreign ex-change was dull and weak at the rates quoted yesterday, which were nominally those of to-day. THE BANK STATEMENT.

The weekly statement of the associated banks. while unfavorable, was so much better than what was expected that it was regarded almost as a good one. The more surprising feature is a small gal of specie, instead of the large loss that was antic pated as a consequence of the specie export about \$3,000,000 during the week. The explanation of this gain lies in the steady and large disburs ments of gold in payment of

NOVEMBER INTEREST . and redemption of the called five-twenties, which with the million sold by the Sub-Treasury, we more than enough to counterbalance the expor referred to and the amount paid into the Treasur on account of customs, which latter ran mu lighter for the past week than usual. The speci item is made on a falling average, however, an the banks would show a large decrease in speci were the statement made up to show their cond tion as they stand at present, instead of giving th average of the past week. The loans are con tracted, but to an insignificant extent. With loss of a million and a half legal tenders there is AN INEXPLICABLE INCREASE

ing that while the banks have shipped th reenlacks they have received nearly three tions of national bank notes, an implied mover of the domestic exchanges not consistent wi facts during the past week, unless, as some the more money came here in private hands to goods for Boston than went away to B through the open channels of the banks an press companies. The statement compares its predecessor as follows:—

STOCKS DULL AND STRONG.

The stock market was strong and prices % a 1 per cent better for the general list and about 2 per cent higher for Erie, in which it is said a new pool have begun operations in connection with parties in London. Pacific Mail was better on the encouragement extended from the company's office with reference to the delay in the passage of the Arizona, another steamer on the same route, having been on one occasion overdue fifteen days and turning up safe after all. St. Paul was weak and de clined to 51, but railied to 52%. The contemplated new issue of Northwestern bonds will, it is probable, take the form of consolidated mortgage bonds, covering the whole property, after the manner of the Ohio and Mississippi, Lake Shore and like consolidated mortgages. Mr. S. V. White, on the announcement of his payment of all claims against him and his resumption of business, was readmitted to the Board by a unanimous vote.

In the Southern State bonds the chief teature was a rise to 35% a 36 for the North Carolinas, on the action of the bondholders' meeting at Baltimore. Tennessees sold at 74% and new South Carolinas at 24. The general market was firm. HIGHEST AND LOWEST PRICES.

UNITED STATES SUPREME COURT.

Important Suit-The Breach of Contract of Affreightment-Continuation of the Cause Since 1864-The Question of Paying Illegal Assessments Under Pro-WASHINGTON, D. C., Nov. 16, 1872.

No. 244. Young vs. Steamboat Key City and Barge Jim Sheets and Northwestern Union Packet Com-pany.—Appeal from the Circuit Court for the Eastern District of Wisconsin,-This is an action for the breach of contract of affreightment occasioned by the sinking of the vessel carrying it. The loss occurred in May, 1864, the barge Jim Sheets and steamer towing her then being the property of the Northwestern Packet Company, and continuing such until the 1st of May, 1866, at which time they were sold to the Northwestern Union Packet Company. The libel was filed in November, 1867, and process served in April 1868. Upon this state of facts the Court enforced the Admirative rule allowing a continuance of the lien against the offending vessels until a reasonable time is given to enforce it, and holding that as such time had elapsed in this case before the vessels were transferred to the present owners, the lien case must be considered as lost. Third persons are not to be prejudiced by the delay of a party neglecting to avail himself of this hen. There being no notice to the present purchasers of the existence of the inen, it was cut off by the sale and transfer of the vessels. It is here contended that mere lapse of time will not defeat the lien, and that the conveyance of the vessel even to an innocent person will not do it. N. J. Emmons for appellant, John W. Carey for appellees. such until the 1st of May, 1866, at which time they

No. 241. Erskine vs. Van Arsdale; Error to the Circuit Court for the Eastern District of Wisconsin: and 242. Same vs. Same .- These were actions to recover the amount of internal revenue duties paid under protest upon thimble-skins and pipe-boxes of cast iron, manufactured by the defendant in error. The Court charged the jury that by the act approved March 2, 1867, such articles made of iron, cast or wrought, were exempt from taxation, and that the tax was illegally assessed. The verdict and judgment were accordingly for the plaintiffs, and the government brought the case here and maintained that the act applied only to such articles in their fluished state, while the evidence showed that the tax collected from the defendants in error, which they seek to recover, was not assessed upon the articles named in such completed state, but upon the iron castings out of which such articles are made. The question is also raised whether parties paying such taxes must make protest at the time of each payment in order to recover all taxes erroneously collected, or whether one protest is sufficient—the government insisting that protest must be made upon the occasion of each payment. C. H. Hill and George H. Williams, for the government: John W. Carey for the defendants, of cast iron, manufactured by the defendant in

THE EQUINE DROPSY.

The Dropsical Symptoms Still Prevailing-The Condition of the Car and Stage Horses-Several Valuable Trotting Horses Dead.

Yesterday morning the horses in the streets had a much healthier appearance, and, judging from the general report. New York has seen the worst of the epizootiy. There are certainly horses dying every day in the city, but in the most instance they appear to be animals that have become afflicted with the dropsy. This new feature of the disease has many very alarming symptoms and has proved fatal in numbers of instances. It appears to be the result of a cessation of the circulation of blood, which, getting clogged up in the arteries, causes ar IMMENSE SWELLING

in the head and limbs, one of the main symptoms of the malady. A horse that exhibited these symp toms yesterday had leeches applied to lam, and in a short time the leeches dropped off dead, showing the poisoned condition of the blood. A well-known veterinary surgeon said yesterday that he believed the doses of aconite that had been so gener ally administered have had something to do with the dropsy. Aconite has a tendency to quiet the pulsation of the heart and thereby stopping the forcing of the blood through the arteries, causes it to settle, and results in these dropsical swellings. He said that out of a thousand horses he had treated not one case had turned into dropsy. He also mentioned a bad case of dropsy which he

had treated not one case had turned into dropsy. He also mentioned a bad case of dropsy which he was cailed in to see on Friday morning, and in which instance he administered a pill containing iron with the most beneficial results.

In this city appears to have paid considerable attention to the progress of the epizooty throughout the country, and finally became so impressed with its importance that he engaged Dr. J. S. Cattanach, a well-known veterinary surgeon, to write his opinions of the disease and the best means of precaution and cure to be adopted, in case the mainly should break out in Japan. This article is to be sent over to Japan to be published in the journals of that country. In the different car stables the hofses appear to be improving steadily and gaining strength and condition. Every means are being taken to strengthen the unfortunate animals, so that they may be ready for the heavy work through the snow. They are still kept on soit diet, such as chopped hay, which is generally given in a mash, with some prepared compound food of a vegetable nature, mixed in to act as a tonic. The Third Avenue stables appear to have been the greatest sufferers during the disease, as they are reported to have lost over thirty horses. The Second Avenue have escaped with very few losses, and the Fourth avenue line state that they have lost seven horses. The Sixth avenue line have lost altogether twenty-one horses, three of which died with dropsy. The superintendent of that line states that they have had several cases of dropso, and have cured several cases of dropso, and have cured several of the worst. The Eighth, Ninth and Tenth avenue line have been tolerably fortunate in escaping many losses, and the Broadway and Seventh avenue line add about eleven to the death roll.

THE STAGE LINES

appear on the whole to have had rather a rough time of it. The Fourth avenue stage horses are rapidly getting into condition, and the foreman says they have only lost six horses. They had several cases of dropsy, but did not los

avenue and Twenty-third street stages are also sufferers to a considerable extent.

THE TROTTING STOCK
have nearly all been afflicted with the disease, and there are some very valuable trotters sick with the dropsy. Commodore Vanderblit's celebrated trotter Mountain Boy died on Friday. There appears, however, to be a difference of opinion as whether this well known horse succumbed to the effects of cholic or the prevailing epizooty. Mountain Boy was one of the best trotting horses in the country, having made his mile in 2:20%. Lottery, owned by Mr. Samuel Truesdell, well known as 2:27 horse, got by old Hambletonian, died yesterday of the disease. Western New York, a trotter that has made his mile in 2:29, owned by Mr. Dennison, has, like Dreadnaught, from Patterson's stable, succumbed to the disease. It was also reported that G. L. Fox, a dun trotter, the property of Mr. Meserole, died yesterday. There are also a number of other valuable horses whose lives are in a precarious condition.

The iail of snow and consequent bad travelling on the different railroads affected traffic considerably last evening, as the car lines did not like running their convalescent horses in the bad weather. The Third and Fourth avenue lines took off a number of their cars last night, much to the inconvenience of the numerous housekeepers who were down town doing their Saturday night marketing.

HORSE NOTES.

Mr. Samuel Truesdell's gray trotting gelding Lottery died yesterday morning. He was sired by Hambletonian, dam by Vermont Morgan. He was nine years old last May. Lottery was fifteen hands three inches high, of a mottled gray color finely formed and possessed of grand trotting action. He was prepared for the turf in the Spring of 1871, by Dan Pfifer, and trotted several races during that year, showing great endurance in all

of 1871, by Dan Pfler, and trotted several races during that year, showing great endurance in all his contests. During last Summer he trotted in all the principal purses for horses that had never beaten 2:25, and showed that he was an improving horse, and gave promise of getting very low in the twentles. He had a record of 2:27. He was valued at \$15,000. Lottery died of dropsy, having, as it was supposed, recovered from the epizootic disease. The dropsy set in on Thursday, and he sank afterwards very rapidly.

Commodore Vanderblit's horse, Mountain Boy was a bay gelding, not quite fifteen hands high. He was foated in 1800: Sired by Mr. Bonner's stallion Edward Everett, his dam being by Gridley's Roebuck, a son of Blackbird. He was bred in Orange county, New York. Edward Everett (late Major Winfield) is a bay horse, foaled in 1855; got by Rysdyk's Hambletonian; dam said to be by imported Margrave; granddam by Trumpator. He was bred by A. Lilburn, Orange county, New York, who sold him in 1869 to Robert Bonner. Mountain Boy was a very fast horse; as last, prebably, as far as he could go, as any horse that ever appeared on the turf. He trotted several races and beat the famous Lady Thorn at Staten Island, Waverley and Saratoga.

The betting at Tattersull's on Monday, November 4, on the Liverpool Cup, was as follows:—5 to 1 against Mornington, 4 years, 7st. 8lb. Doris Sent to the County Jail-The Inquest to be Held To-Morrow.

When the announcement of Donnellan's death was made to Doris in his cell Police Headquarters yesterday he betrayed no emotion. The same dogged stubbornness and the same cool determination to meet the consequences same cool determination to meet the consequences like a man—in short, to be what criminals term "plucky!"—were but too apparent. When taken before Justice Keese, however, some of his pluck deserted him. He rested his head between his hands, leaning on his knees, and fixed his eyes on the ground. In answer to the questions put to him he stated that he was a native of Ireland, twenty-five years of age, unmarried, and a bartender by occupation. He was handcuffed and taken under a strong escort to the County Juil.

He was handcuffed and taken under a strong escort to the County Jail.

The wound which sent Donnellan to his grave is a singular one. The bullet penetrated the cavity of the abdomen and the intestines thirteen inches in a direct line, until it reached the spinal column, thence it passed upwards, transversely, and finally lodged itself in the lower tube of the left lung. It is of small size—not larger in diameter than an ordinary slate pencil, and not more than the sixteenth of an inch in length. The inquest will be commenced to-morrow be-fore Coroner Remhardt.

PATE OF THE UNKNOWN.

In the Morgue, at Newark, N. J., there is now lying the body of an unknown man, which was fished out of the Passaic on Friday. Deceased was stoutly built, about five feet six inches in height, light complexion, sandy moustache, slightly bald, and probably an American. He was dressed in heavy boots, olicloth overails, striped shirt and dark cont. His pockets contained, among other things, a memorandum book, very much torn, and a few business cards, one of which was from the "Four Lions, 29 North William street, New York." In the memorandum book was written several times the name of Thomas Waich. On another leaf was the following. "Thomas Waich. On another leaf was the following. "Thomas Norris bought this book at Bridgeport in January." The body and effects are held for identification.
